Solar Solutions GmbH | Brückenstrasse 94 | D-60594 Frankfurt am Main

Date 2021/04/12

To whom it may concern

We at Solar Solutions GmbH are the suppliers of AEG branded photovoltaic solar panels and associated other pv equipment.

We are extremely diligent in the selection of our manufacturing partners. We have asked for written assurances that they maintain the highest moral, ethical and legal standard in the manufacture of AEG branded goods. This includes ensuring that slavery, unlawful child labour, racism, and religious restriction are not taking place in their business and that they request the same from the companies in their supply chain. We have received said formal written assurance.

1

We expect the highest standard of our suppliers and for the Benelux market we only select manufacturers who are listed on the Bloomberg tier 1 list.

Yours sincerely,

Stuart Brannigan

Managing Director
